A general air of desolation hovers over the offices at No. 11 Broadway. When an Evening World reporter called to-day there was a sound of ripping and tearing and a number of unoccupied rooms were filled with shelves and stocks in the general list, many of the iks. Receiver Mack, who was the ncipal promoter of the National phait Company, said: i will not deny that the headquarters

"I will not deny that the headquarters of the receivers, which is the present headquarters of the National Asphalt Company, will be removed to Philadelphia in a comparatively short time. When? That I do not care to state. It is scarcely likely that there will be any brass band at the Broad Street Station, in Philadelphia, to greet the Asphalt Trust when it arrives, as it was to the financiers of that city that the collapse did the greatest damage. Fixed charges, approximately \$1,000,000, brought about the receivership of the Asphalt Trust, although there is belief of its reorganization through the acquisition of the properties of the trust by a new corporation, which is to have a capitalization of \$31,000,000 and is to be organized under the laws of New Jersey.

Gold from London will begin to arrive to-morrow or Thursday, and it will continue coming for three or four weeks, but at the same time the drain from the interior is too heavy for the local banks to withstand without trouble.

At the start there was an organized resistance to the decline, but this later gave way to a desire to get out and pod liquidation on a large scale began. One prominent interest, heretofore strongly bullish, sold 100,000 shares in various stocks and added to the general weakness of the market.

MORE YARD SPACE.

Reasons Given to Murray Hill Board Why Park Avenue Should Be Widened and the Streets Closed.

The first public hearing on the proposition of the New York Central second street to Fifty-sixth street was the Murray Hill District to-day.

The petition, which is signed by W C. Brown, the Third Vice-President and W. S. Crane, the Treasurer of the company, was received by Borough President Cantor on Aug. 3.

It recites the need of increased yard facilities at the Grand Central Station. and in order to do this the railroad company pleads that it will be necessary to discontinue and close portions of her lawyer, and went straight before Park avenue and streets adjacent

> The plans offered call for the widen ing of Park avenue on the wester;y side from East Forty-ninth street t street, Forty-seventh street and Forty

street, Forty-seventh street and Fortyeighth street.
East Forty-ninth, Fiftleth, Fifty-first,
Fifty-second, Fifty-third, Fifty-fourth
and Fifty-fifth streets will also be
closed for shorter distances. Park avenue would also have to be closed on the
westerly side where it is to be idened.
The railroad also states that it is willling to agree to incemnify and secure
the city from all cost and expense, and
to extend also bridges over the streets.
The property, it is claimed, is needed
for the substitution of electricity for
steam, the space being needed for power
houses and additional switching arrangements.

No definite action was taken at to day's hearing, a quorum not being pres-

A WORD OF

Patent Medicines. and Why We Are Undisputed Leaders.

Patent medicines at the prices we ask were absolutely un known until Rothenberg methods brought down their cost to you. We blazed the way to low prices. We come out boldly with price announcements, and tell you exactly what we are selling and what we are asking for it. We engage in no subterfuges, no generalities. That fact alone proves us leaders.

Most Attractive Silks and Dress Goods.

Most attractive prices, too. But that's natural enough. You're pretty sure to find the best values where you find the broadest showings. Weavers and dyers never put more chairm into their product than they have this season. And we never before had quite such a full array as we have new. Following specials:
